Preferred Position

Front-end developer.

Personal Statement

A senior front-end developer with a background in art and full-stack development. Experienced in leading teams and working in startups.

Experience

Miare (mia.re) / Senior front-end developer

December 2019 - April 2020, Tehran

Miare is a B2B food delivery startup.

In Miare I used Typescript, React, Redux, SASS, Gitlab and Kanban to develop and maintain their back office web applications. I also used Jest to write unit and integration tests.

I was laid off from Miare due to the aftermath of Covid-19 pandemic.

Boro (boro.travel) / Co-founder and developer

June 2019 - December 2019, Tehran

Boro is a Tours and Activities startup developed as a PWA. It was created using a Javascript SDK and UI framework that I built around Mapbox GL JS.

Map (map.ir) / Senior front-end developer and team leader

May 2017 - May 2019, Tehran

At Map.ir, I led the front-end team for two years since they started as a startup until they grew into a company.

I used pure Javascript and CSS as well as jQuery, Vue, React, Gitlab, Jira, Scrum and Kanban to develop multiple products.

During my two years at Shiveh I was proud to train and later work with five talented interns.

Freelance full-stack development / full-stack developer

2006 - 2017, Rasht

For about a decade I worked as a full-stack developer. I used PHP and frameworks such as Laravel before I decided to focus on the front-end.

Education

University of Tabriz / Bachelor of Science (Electrical Engineering - Control)

September 2001 - September 2007, Tabriz, Iran

Self-education

2005 - Present

I find learning online to be a great way to keep myself up to date with the latest developments.

I am eager to learn and I enjoy sharing my knowledge with others.

About Me

- I have great value for producing high quality, clean and reusable code. I believe code review and pair programming can help achieve that in a team.
- I have worked with agile teams, and I believe a good balance of work and fun in a friendly atmosphere can result in increased productivity.
- Although I no longer code for the backend, I believe my experience in backend development is a great help when it comes to collaborating with backend teams.
- I am a proactive person and I consider it my responsibility to foresee future challenges upfront.

Niche

Development of:

- mobile first and responsive layouts
- CSS frameworks and Javascript SDKs
- web maps.
